INTRODUCTION.

THERE has, for some years, been a growing interest in genealogical research, and the literature on the subject is already very extensive, although it is, for the most part, shut up in the archives of historical libraries, and the public are ignorant of its existence.

The perusal of elaborate and intricate tracings of genealogical branches is not a popular study, for it is impossible to create a very widespread interest in names the record and recollection of which have passed away in the current of time; but it is not so with the *direct pedigrees* of those whose living personality is part of our social or national life.

"Who is he?" is almost the first question put regarding an individual who happens to come into prominence or notoriety, and the absence of trustworthy information on the subject of ancestry often gives rise to very serious misapprehension. However indifferent some may affect to be regarding this question of ancestry, universal experience of human nature serves to prove that those who really have a pedigree will usually boast of it, whilst only those who lack one, and cannot perhaps even trace to their grandfather, will condemn such as frivolous and foolish. Some of America's greatest citizens have not hesitated to declare their pride of birth and pedigree. PRESIDENT GARFIELD delighted to dwell on the traits of his ancestors and was justly proud of his long lineage; SAMUEL J. TILDEN found leisure amidst the strife of politics to devote to such investigations; and DANIEL WEBSTER often declared that the study of ancestry was an incumbent duty, and that we should look upon the present generation as connecting links between the eventful past and the unknown future. The preservation of pedigrees is therefore not the mere pastime of the idle or curious. It is the honorable employment of the student and of the historian. *It has always formed the basis of all true history.*

In the ancient records of Assyria, Egypt, and Arabia, the pedigree of an individual was usually the thread upon which was strung the stirring events of

centuries, and so important a place did the preservation of a lineage occupy amongst the Jewish people that it was established as a positive obligation upon every Levite of the temple.

Nor was this genealogical form of history peculiar to Semetic races. The earliest Greek records were also those of pedigrees. The histories of Acusilaus of Argos, and of Hecatæus of Miletus were entitled γενεαλογίαι (genealogies), and the fragmentary histories of Xanthus, Charon of Lampsacus, and Hellanicus are strongly marked with the genealogical element, a form of history which is clearly sustained in the Greek Testament by the writers of the gospel narrative, who base the whole structure of Christianity upon the established pedigree of its founder.

Josephus regarded genealogical study as of the utmost importance, and in giving an account of his personal history, boasts "I have traced my pedigree as I have found it recorded in the public tablets." And it is in harmony with such feelings that the present work on AMERICAN ANCESTRY has been undertaken.

The names of only those who can trace their lineage to an ancestor who was settled in America previous to the DECLARATION OF AMERICAN INDEPENDENCE are admitted, and when it is remembered that there was only a population of less than two millions and a quarter in the whole of the United States in the year 1776 (exclusive of slaves and Indians), it will be seen that but a small proportion of the present population can claim the honor of being descended from the original American stock; and consequently in ages to come, the arrival of the Virginian colonists, the emigration of the Puritan and Dutch settlers, as well as the settlement of the Quaker and Huguenot refugees will form as memorable epochs in the history of the GREAT REPUBLIC as the Saxon and Norman conquests of GREAT BRITAIN now do in the history of that country. A few centuries hence Americans will experience as much pleasure in tracing back their ancestry to those periods as the English now do to the days of Williamthe Conqueror.

These volumes of AMERICAN ANCESTRY will supply a most convenient method of preserving such pedigrees. And although its pages will contain, for the most part, but simple records of uneventful generations, they will preserve facts which would otherwise be lost in the history of the people.

The number of lineages in the present volume, embracing ALBANY CITY, is comparatively small. But a very large majority of the residents of Albany, who have every reason to believe that they are descended from an old American stock, cannot trace as far back as 1776, whilst not a few of those who bear the

well-known names of early Dutch and English settlers have an awkward and inconvenient *hiatus* in their pedigrees, to which history cannot supply the necessary link.

In a few instances the lineages of prominent Albanians have been withdrawn, because the design of our work precludes the publication of *auto-biographical sketches* (not always of the most modest and unassuming character) of living persons. As our work is exclusively one on *Ancestry*, we have found it wiser and safer to omit all references to the living beyond the names and marriage.

Each lineage is intended to be an impartial record, and we have been careful to expunge all such adjectives as "great," "prominent" and "pious" from the pedigrees. The historic record of public offices held, works written, and other remarks pretty clearly define the position of each line of ancestry without any laudatory statements.

We have been anxious to obtain all the information possible regarding the history of a family prior to emigration, and when a distinct pedigree is given to a noble or distinguished ancestry, we have been careful to insert it, but in those cases where the line is at present only *probable* we have given a qualified statement to that effect, for as the *ipsissima verba* of the manuscript sent to the editor have in no case been inserted, he practically makes himself responsible for the lineages.

Undoubtedly some of the very best blood of the old world flowed in the veins of the early American colonists, and the more carefully their genealogy is investigated, the more deeply interesting will be the facts elucidated, and we cannot but hope that the publication of successive volumes of AMERICAN ANCESTRY will both stimulate inquiry as to the early history of American families and also revive that most ancient method of forming history — the careful and painstaking study of genealogy and pedigree.

Rebecca Winslow), assistant of the governor, member of prov. council; son of **ANTHONY THATCHER,** b. at Salisbury, England, about 1595 (m. 1st, ———, 2nd, Elizabeth Jones), sailed from Southampton, England, in the ship *James*, April 6, landed at Boston, Mass., June 4, 1635, accompanied by his nephew, Thomas Thatcher, and his cousin, Rev. Joseph Avery. After a short stay at Ipswich, he accompanied Avery to Marblehead, the pinnace was wrecked and all lost but Anthony and his wife, who were cast on the island known as Thatcher Island, as the rock on which the ship struck is known as Avery's woe. See *Song of Parson Avery* by Whittier. Rep. Yarmouth in general court, 1643–65, died 1667, buried upon his own land, a portion of which is still held by his family, and a house built by his son John still stands. He was a refugee in Holland for twenty years, but was afterward his brother's curate at Salisbury. It is said he had twenty children. See Savage's *Gen. Dict., in loco.* [638]

———**HENRY TOWNSEND** (m. Anne Coles), ancestor of 645, 646, 647, 648, with his two brothers, John and Rich-

ard, came from Norwich, Norfolk, England, and landed probably at Lynn, Mass., and then came to Long Island, and settled at Flushing; his brother John being one of the original settlers of that place, to whom the patent was granted by Gov. Kieft, in 1645. On account of political and religious difficulties with the Dutch governor, Peter Stuyvesant, the Townsend brothers removed to Warwick, Rhode Island, where they were all three members of the provincial assembly, and held, besides, municipal offices. In 1656 they once more attempted to settle in Long Island, and in that year obtained, with others, the patent of *Rustdorp* (now Jamaica). In 1657 Henry Townsend was arrested, imprisoned and fined "one hundred pounds Flanders" for harboring Quakers in his house. In the following year, 1658, he moved with his brothers to Oyster Bay, which was out of the jurisdiction of the Dutch hierarchy at New Amsterdam, where he spent the remainder of his life, and died at Oyster Bay, in 1695. This family is probably connected with the distinguished family of the Townsends of Raynham, Norfolk, England, and of Sir Roger Townsend of Ludlow Salop, but the link is not established. See *Townsend Family of Lynn*, p. 78. [649]

FORM FOR INSERTION IN

AMERICAN ANCESTRY.

Published by JOEL MUNSELL'S SONS, Albany, N.Y.

Regarding the living, nothing but the name is required, but the names of wives may be added if desired. Nothing additional will be inserted, the publication being strictly a work on ancestry, in distinction from a dictionary of cotemporary biography.

Regarding the departed, state all of the important events in each ancestor's life in as brief a form as possible.

No charge is made for the insertion of this information in American Ancestry. If a copy of the book is desired, mention the same, and when published it will be delivered at your address, price $2.50 payable upon delivery.

Vol. II, Albany County.
Vol. III, Columbia County,

American Genealogical Index, being an alphabetical Index to American Genealogies and Pedigrees contained in State, County and Town Histories, Printed Genealogies and kindred works, by Daniel S. Durrie, Librarian State Historical Society of Wisconsin. Third edition, revised and enlarged (last edition), Albany, 1886. 8vo, about 245 pages, cloth, $3.

This work has been prepared with a view to facilitate the study of family history, by furnishing an index to the genealogies contained in the large number of county and town histories, collections of public and privately printed genealogies, centennial anniversary celebrations, biographies and other works containing the desired information. But few persons have an adequate knowledge of the amount of genealogical material to be found in such volumes, from the fact, that anything like a full collection of works in those departments, can only be found in the larger cities, and in the hands of a few private parties; and without consulting them, it is often an impossibility to prepare a family history, or of learning anything very definite of any particular family. With the assistance furnished by this volume, no difficulty will be experienced in collecting needed information, by any one interested in such investigations. It also affords instruction to the general reader, who may not know whether the history of his native county, town or village has ever been written and published; but its most desirable feature, is the knowledge to be gained by all persons, whether residing in the country, or elsewhere, who, by examining its pages, can inform themselves whether the genealogy, or pedigree of any family, or any portion thereof, in which they may feel an interest, has been printed in any volume, and if so, that they may have the benefit of such information. More than fifteen thousand names are here alphabetically arranged. Several hundred volumes of historical and biographical publications have been minutely examined in detail, and not depending on the indexes, appended to such volumes, which are more or less defective and incomplete. A number of works not accessible to the compiler, have been examined by parties interested in perfecting the work. The more important names in Dr. Savage's *Genealogical Dictionary* have been noticed as well as the genealogies found in the volumes of the *New England Historical and Genealogical Register*. This is the only work of the kind published in this country. It has been the aim of the compiler to make it as thorough and complete as possible. The body of the work is preceded by a list of principal titles of works referred to in the index.

THE NEW YORK TRIBUNE.

AMERICAN TO THE CORE.

THE HISTORIC ADVOCATE AND DEFENDER OF A PROTECTION TARIFF.

DAILY $8 50 A YEAR. SEMI-WEEKLY $2.00. WEEKLY $1 00.

The Tribune is the largest 8 page morning daily in New York City, a hearty, wide awake, complete, aggression newspaper. Its yearly subscription price is *low* enough to place the paper within the reach of all, and *high* enough to enable The Tribune to remain clean, wholesome, and free from vicious trash, while bright, newsy, and thoroughly readable. The extra dollar or two a year which The Daily Tribune costs, is a ridiculously small price to pay, as a guarantee that your daily newspaper will not degrade your own facts or debauch the minds of your family. The Tribune is emphatically,

THE PAPER YOU CAN TAKE AT HOME.

The paper through which Mr. Parnell and the Irish leaders in Parliament usually communicate their side of their controversy to the American people. Just, however to both sides in Parliament.

THE TIBUNE BOOK OF OPEN AIR SPORTS.

A sturdy American ancestry is a matter to be proud of, especially if a mans lineage shows that his forefathers have taken some part in fighting for the countries liberties, or in forming the ideas of the people, or in managing its affairs. In order that the present race may not be the degenerate sons of a noble ancestry, the men and women of today must pay much attention to the development of their muscles, bones, lungs, and physical strenth, as well as to the education of their brains. "The Tribune Book of Open Air Sports," 500 octavo pages, 150 illustrations, which has been placed on the market this year, is a most valuable complete and entertaining work. The Press pronounces it the standard manual. All the rules are given of every game and high days sport, with the records of the champions and great players, and with suggestions to beginners.

Chapters are provided on Archery ; Baseball, with the record of wonderfull playing and of the League and Association matches, and with instructions how to curve a ball ; Court Tennis, Lawn Tennis, Football, Cricket, Lacrosse, Racket ; Horsemanship with all the rules, and Cross-Country Hunting, with a list of the membership of the principal fox-hunting clubs ; Yachting with a disussion of all the small yachts and a comparison of Sloop and Cutter, with instructions How to design, Build, and Sail a Boat ; Rowing canoeing, Fishing with a statement of the various American game fish and the flies used to capture them ; Trapping, Swimming, Hunting with Shot-Gun and Rifle, with a description of the different varieties of American wild game ; Camping out, Winter Sports Bicycling, Amateur Photography, and a few minor sports. Among the writers who have contributed are William Blakie, author of "How to get Strong;" Maurice Thompson, the archery expert ; Captain Jacob A. Augur, Cavalry instructor at West Point ; David Kirby and Thomas Clapham, yacht builders ; Gen. Geo. W. Wingate, the rifleman ; Prof. Geo. Goldie, Director of Athletics of the New York Athletic Club ; and a large number of private gentlemen in the South and throughout the country, who have contributed facts concerning the wild game and hunting sports of their several localities

THE LITERARY WORLD.

A Fortnightly Journal of Literary Criticism, News, and Discussion.

E. H. HAMES & CO., Publishers. EDWARD ABBOTT, Editor.

$2.00 A YEAR.

The LITERARY WORLD, now in its 18th volume, is the oldest as it is confessedly the foremost journal of purely literary criticism in the United States. Other journals make a speciality of literary criticism, and there are one or two "literary monthlies," so called ; but as a fortnightly organ of current literature the LITERARY WORLD stands without a rival, and it challenges comparison with any other publication in the country, occupying to any extent the same field.

FEATURES OF THE PAPER.

Critical reviews of all new books.
Descriptive notices of all new writers.
Fresh news from the publishing houses.
Literary gossip from Boston, New York, Philadelphia, and Chicago.
Regular correspondence from England and the continent.
A department devoted to Shakespeare study, conducted by W. J. Rolfe.
An index to notable articles in the magazines, American and foreign.
An annual review of the world's literature, by nations.
Selections from the best new books, etc., etc., etc.

THE CRITIC.

THE CRITIC, established in January, 1881, is universally admitted to be "the first literary journal in America." It aims to keep its readers thoroughly informed on literary matters in America and England. Its plan embraces a leading essay or editorial, usually on some literary topic of timely interest; independent and impartial reviews of all important books published in America; occasional comment on matters relating to the fine arts, music and the drama; literary news and notes; original poetry; communication; a gossiping department called ("The Lounger;") a column of notes and queries ("The Free Parliament"), open to any subscriber who wishes to ask or answer a pertinent literary question; and carefully selected articles from the English literary journals and reviews. At present a very interesting series of personal sketches is appearing under the title of "Authors at Home."

BISHOP POTTER ALWAYS READS IT.

(Extract from a private letter printed by permission.)

I am glad of this opportunity to express to you my keen sense of indebtedness for *The Critic*. I never read it—and, no matter how much driven, I never allow it to go unread—without a fresh conviction of its rare worth. It is so thoroughly *just*, so discriminating, so full of the atmosphere of a courageous, candid and open-minded criticism, that one cannot but be proud and glad that so good and helpful a journal is winning its way to the wider recognition and esteem which it so abundantly deserves.

TO THE PUBLIC.

Probably not one in ten of the consumers understand the ingredients which compose the numberless varieties of Soap now offered for sale. Did they do so, as well as the injurious nature of many of the adulterations, they would be more cautious in purchasing. We subjoin a list of articles used to cheapen Soaps by many manufacturers: French clay, plaster of paris, talc, silex, quartz and ground glass formed into a liquid, with a number of other articles, to lighten the color and add to the weight. Good Soap, like good wine is improved by age. A box of soap in a family is better than money at interest as when from three to six months old, one pound will go further than three pounds of new soap.
